

'Ok Google, Turn on the Air Conditioning'

AirTouch & Google Home Quick Start Guide

Now you can control your home air conditioning with your voice.

works with the
Google Assistant

airtouch.net.au

AirTouch now works with Google Assistant to give you voice control of your air conditioning.

Just start with
“Ok Google” or
“Hey Google” and
your Assistant is
ready to help.

I ask you to do?’

12-13

Getting Started

Google Assistant

Download the latest **Google Assistant App** to your Apple iOS or Android device.

Linking AirTouch to Google Assistant

1

From the homescreen, tap the **Explore** button.

2

Tap **Settings** from the drop down menu (⋮) in the top right corner of the screen.

3

Scroll down and tap **Home Control** to enter the Home Control Setup menu (go to page 8).

Getting Started

Google Home

Download the latest **Google Home App** to your Apple iOS or Android device.

Connecting AirTouch to Google Home

1

From the homescreen, tap the **Settings** menu button.

2

Scroll down and tap **Home Control** to enter the Home Control Setup menu (go to page 8).

Getting Started

Home Control Menu

The Home Control menu lists all services that are available for Google Assistant to control. It is the same for both the Google Home and Google Assistant Apps.

For AirTouch to appear in this menu, it needs to be added as a service.

Adding AirTouch as a Home Control Service

1

Tap the  icon to enter the **Add devices** menu.

2

Find and tap **AirTouch**.

3

Choose and sign into your **Google Account**.

You will then be taken to the **AirTouch Management Console** login screen (go to page 10).

Getting Started

AirTouch Management Console

The AirTouch Management Console screen is the place to view, add and remove devices linked to your account.

AirTouch Management Console

1

Enter your AirTouch Device ID and password.

2

Tap **Next**, and AirTouch will be automatically added to your Google Assistant service list.

Each zone listed in AirTouch will be treated as an individual room by Google Assistant.

Now you can control your home's climate with your voice using Google Assistant on your smartphone or Google Home Smart Speaker.

'Ok Google, What can I ask you to do?'

You want to...

Turn the Air Conditioning On or Off

Handy Tip

Use AirTouch to name your Zones and AC Unit easy to remember names like, "Living Room" or "Downstairs"

Just say

Ok Google/Hey Google...

- Turn on/off the Air Conditioning
- Switch on/off the Air Conditioning
- Turn on/off the <Zone Name>
- Switch on/off the <Zone Name>
- Turn on/off all <Zones>
- Switch on/off all <Zones>

Change the Mode of your Air Conditioning

- Set <AC Unit Name> to cool/heat mode
- Change <AC Unit Name> to cool/heat mode

Change the Temperature Set Point

- Set <Zone Name> to <temperature value in °C>*
- Change <Zone Name> to <temperature value in °C>*

Increase/Decrease the Temperature

- Cool down/Warm up <Zone Name> (will change by 3°C)*
- Increase/Decrease <Zone Name> (will change by 3°C)*
- Cool down/Warm up <Zone Name> by <temperature value in °C>*
- Increase/Decrease <Zone Name> by <temperature value in °C>*

Query the Temperature

- What is <AC Unit Name/Zone Name> set to?*
- What is the temperature of <AC Unit Name/Zone Name>?*

Query the Status of the Air Conditioning

- Is <AC Unit Name/Zone Name> on or off?
- Are <AC Unit Name/Zone Names> on or off?

Note for iOS Users

You will need to open the Google Assistant App, or use the App widget, when voicing these commands.

* Requires AirTouch 3 with Individual Temperature Control (ITC) sensors
